

☪ Hurricane Preparedness ☪

While we are often reminded to have our families prepared in the event of an emergency, many people forget that includes pets, too! In the event of a power outage or evacuation, make sure to have a disaster kit prepared.

- ☪ Your pet's **DISASTER KIT** should include:
 - Food and water for at least 5 days, food bowls
 - Medications
 - Leashes/collars, bedding
 - Current vaccine history, a current photo and a crate or carrier.
 - Be sure to check that your hotel accommodations and/or shelter are pet friendly in case evacuation is required (pet-friendly shelters in St. John's County are listed below).
- ☪ Visit <https://secure.aspca.org/form/free-pet-safety-pack> to order a **FREE** safety pack that includes a rescue window decal to alert emergency personnel that there is a pet in your home!
